**Make checks payable to: Kentucky State Treasurer**

No.	Unit	Complete Vehicle ID Number	Year	Make	State of License	Plate No.	Width	Length	Gross Weight	# of Axles	Steering Axle Weight	Axle Breakdown by Group

**THIS IS NOT A PERMIT**

Annual permit(s) for travel in Kentucky will be issued from the above information. The power unit must be properly licensed with Kentucky. Overall height is limited to 13-ft. 6-in. and size and weight will vary depending on the type of permit applied for. In all cases, the Kentucky laws and administration regulations shall apply. In applying for these permits, the permittee acknowledges that the permittor is not a guarantor of the safe passage of vehicles or loads. Accordingly, it is the positive duty of the permittee to measure all clearances of highway structures, both laterally, vertically, and shall observe actual gross and axle weights, prior to the passage of the vehicle through their location. Therefore, the permit is to be used at the sole risk of the permittee, without warranty of accuracy. The recipient is classified as a bare licensee whose duty it is to assume the risk involved in using the Kentucky roads designated. The permit to be issued will apply only to the state maintained highways and does not include county or city highways. **Any permit may be voided, without refund, if the applicant fails to comply with the term of the permit and Kentucky laws and regulations. Permits will be transferred from one vehicle to another for a \$10 fee.**

I certify that I will survey the routes for movements to determine that all highways and structures are capable of handling the excess width, length, or weights. I have copies of, and I am familiar with all Kentucky laws and administrative regulations relating to movement of oversize and/or overweight loads.
